

**"All is well with
AgeWell Plus"**

Introducing AgeWell Plus

Digital health for your family

AgeWell Plus Connect

Telemedicine and access to patient's digital health records

AgeWell Plus Health Monitor

A diagnostic device to perform multiple tests at home

AgeWell Plus App

Easy to use interface designed for the elderly

Features

Easy to use health monitor

Access to patient's reports online

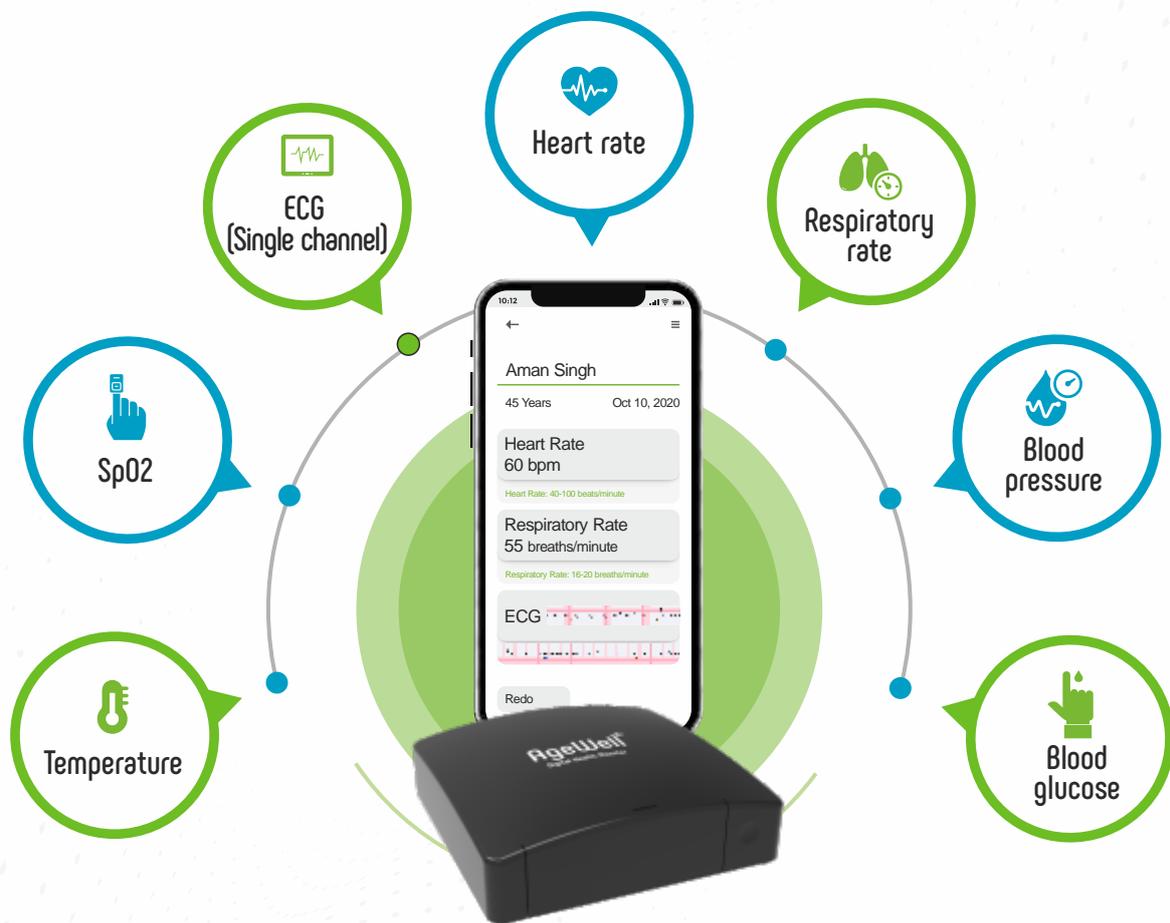

Tele consultation

Digital prescriptions

The AgeWell Plus Health Monitor, when paired with the AgeWell Plus App allows elderly patients to test and track their own vital signs. The results are shared in real-time with the family doctor who can respond quickly using teleconsultation. Family members can also feel assured by having their own access to the results. In this way, AgeWell Plus forms a 'Circle of Care' for its user members.

A smart all-in-one device

How does AgeWell Plus work?

AgeWell Plus is a state-of-the-art, easy to use diagnostic platform integrated with AgeWell App. The app is designed specifically for patients allowing them to monitor their health, save medical reports and access their prescriptions anytime, anywhere.

For the patients

One-stop for medical records

Family access to reports
